Focus
Cybersecurity Analyst

CAREER OBJECTIVE

To start a career as a cybersecurity analyst by building on my software development experience. I want to strengthen my knowledge of networks, Linux and threat detection, and apply it to protect real systems through internships and projects.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science — **Currently pursuing | 3rd Semester**

Asha M. Tarsadia Institute of Computer Science and Technology, Uka Tarsadia University

TECHNICAL SKILLS

Programming: Java, JavaScript, SQL

Web Technologies: HTML, CSS, React, Node.js, Express, Tailwind CSS

Tools: Visual Studio Code (VS Code), Git, GitHub, SQLite

Learning: Linux, networking basics, threat detection

PROJECTS

1. CNC/VMC Job Card and Order Tracking System

A full-stack system built as a live project for Triangle Engineering, Surat. It replaces paper job cards with a digital record of every job from registration to dispatch, with role-based login for admins, operators and clients, machine availability checks, quality sign-off before dispatch, audit trails and a printable delivery challan. Built with React, Node.js, Express and SQLite.

2. Personal Portfolio Website

A responsive single-page portfolio built for the Git and GitHub course and deployed with GitHub Pages using HTML, CSS and JavaScript.

SOFT SKILLS

Communication • Teamwork • Problem solving • Time management
